

## **Automated External Defibrillators (AED)**

Estimated time to complete: 20 minutes

### **Course Description**

SafeColleges' Automated External Defibrillators course is a concise tutorial designed for all staff that focuses on the use of automated external defibrillators. AEDs have been proven to be effective in saving the lives of heart attack and sudden cardiac arrest disorder. The course addresses how lifesaving AEDs are used in health emergencies on a college campus.

### **Common Themes**

- Learn about heart attacks, sudden cardiac arrest and AEDs.
- Review and understand AED basics.
- Receive an overview of AED use.

### **Authors**

Suzan Tibbitts is a school nurse in Utah. She is directly responsible for the health care of over 9,000 students, and project manager of the Vaccine for Children program in the Granite School District. Suzan graduated from Westminster College with a Bachelors degree in Nursing and received her Masters of Nursing in Health Care Administration and Education from the University of Phoenix.

Janell Eastman is also a district nurse with responsibility for over 9,000 students in the Granite School District of Utah. Her past experience includes Surgical Nursing, Public Health Case Management and Occupational Health Administration. Janell graduated from Brigham Young University with a Bachelors degree in Consumer Economics and from Westminster College with a Bachelors degree in Nursing and received her Masters of Education from Cambridge College.

### **Training Environments**

*SafeColleges* is ideal for a blended learning environment, complementing in-service or video training, or as a stand-alone training course. The *SafeColleges* approach engages the learner in an e-learning environment; while a Compliance Management System automatically tracks his/her progress through the courses. This assists the campus administrator or training coordinator in demonstrating compliance.
