

## **HIV/AIDS Awareness**

Estimated time to complete: 10 minutes

### **Course Description**

*SafeColleges HIV/AIDS Awareness* course is a tutorial designed for all school staff that focuses on the Human Immunodeficiency Virus (HIV) and the disease of Acquired Immunodeficiency Syndrome (AIDS). Both the virus and the disease are examined from the perspectives of impact to students and impact to the school workplace.

### **Common Themes**

- History and epidemiology of HIV and AIDS
- Methods of transmission of HIV
- Universal precautions to mitigate the risks of virus transmission
- Treatments and prognosis for individuals with HIV or AIDS
- Confidentiality and rights of workers with HIV or AIDS

### **Author**

Carol Jones, RN, MS has been a school nurse in the Peninsula School District in Gig Harbor, Washington for over 20 years and also serves as the lead nurse. She is a BLS and First Aid Instructor through the American Heart Association and coordinates the first aid and bloodborne pathogen training for district employees. Carol also has experience as an emergency department nurse and as a medical-surgical instructor in a diploma-nursing program.

### **Training Environments**

*SafeColleges* is ideal for a blended learning environment, complementing in-service or video training, or as a stand-alone training course. The *SafeColleges* approach engages the learner in an e-learning environment; while a Compliance Management System automatically tracks his/her progress through the courses. This assists the campus administrator or training coordinator in demonstrating compliance.
