

Pandemic Flu

Estimated time to complete: 20 min.

Course Description

SafeColleges' *Pandemic Flu* course is designed to educate all school workers on the threat of Pandemic Flu. It begins with some of the common questions asked by teachers, support staff, and administrators. The course explores both the evolution and history of pandemics. It includes an explanation of the various phases of pandemic as recognized by the World Health Organization (WHO). Another section explores in more detail Swine Flu and the H1N1 strain. Along the way, some myths surrounding swine flu are dispelled and the facts are reinforced. As with all SafeSchools courses, the content is designed specifically for the school worker, both professional and support staff. The course concludes with numerous practical considerations for school workers to help reduce the threat of pandemic flu.

Common Themes

This course reviews the following topics related to pandemic flu:

- Definition of key terms such as pandemic
- The value of precaution over panic for school workers
- The importance of following your school & district policy
- The threat of pandemic and how viruses originate and spread
- The history of pandemics
- Swine flu and the H1N1 strain
- Practical considerations for school and district employees

Training Environments

SafeColleges is ideal for a blended learning environment, complementing in-service or video training, or as a stand-alone training course. The *SafeColleges* approach engages the learner in an e-learning environment; while a Compliance Management System automatically tracks his/her progress through the courses. This assists the campus administrator or training coordinator in demonstrating compliance.
