

Personal Protective Equipment

Estimated time to complete: 20 minutes

Course Description

SafeColleges Personal Protective Equipment course is a concise tutorial designed for all school or college campus employees. The course covers the basics of hazard assessments to determine required PPE as well as various types of PPE. Specifically, the course content addresses, eye and face protection, hand and arm protection, foot and shin protection, safety footwear, and general work clothing. Lastly, the course re-emphasizes the training requirements for personal protective equipment.

Common Themes

- The requirements of hazard assessment to determine PPE needed
- Review of various hazards on campus that constitute need for PPE
- Reviews types of PPE
- Covers on-the-job statistics from lack of proper PPE use
- Discussion of OSHA standards for personal protective equipment

Author

James Vaughan is president of Today's Resources, Inc. (TRI), a full-service safety and health consulting firm specializing consulting services to businesses and academic institutions. Jim has direct OSHA compliance and loss-control experience, and is a former OSHA director.

Training Environments

SafeColleges is ideal for a blended learning environment, complementing in-service or video training, or as a stand-alone training course. The *SafeColleges* approach engages the learner in an e-learning environment; while a Compliance Management System automatically tracks his/her progress through the courses. This assists the campus administrator or training coordinator in demonstrating compliance.
