

Van Safety

Estimated time to complete: 20 min.

Course Description

SafeColleges' *Van Safety* course is designed to refine awareness, knowledge, and understanding of how to safely operate a passenger van. It is important for campus van drivers to become familiar with the safety and handling concerns that affect their performance in the driver's seat. After taking this course, campus van drivers will be better able to protect themselves and their students from common hazards associated with this task.

Common Themes

This course reviews the following topics related to van safety awareness:

- The characteristics of a van and how it differs from smaller passenger vehicles
- How to safely drive a van in different environments
- Proactive driving techniques for drivers of vans

Author

Patrick Fitzpatrick is a fifteen-year veteran of the Washington State Patrol where he served in many capacities, including Police Pursuit Academy Instructor and Safety Education Officer, and won acclaim for his innovative programs and public education courses. Currently serving as Director of Risk Management, Safety, and Security Services for the Northshore (Washington) School District, Patrick is President of "Compass - A New Direction in Driving", an LLC that provides vehicle operator training systems to both the public and private sector throughout the United States and Canada.

Training Environments

SafeColleges is ideal for a blended learning environment, complementing in-service or video training, or as a stand-alone training course. The *SafeColleges* approach engages the learner in an e-learning environment while a Compliance Management System automatically tracks his/her progress through the courses. This assists the district administrator or training coordinator in demonstrating compliance.
