

Visual Weapons Screening

Estimated time to complete: 20 min.

Course Description

SafeColleges' *Visual Weapons Screening* course has been designed to teach campus staff members basic principles in visual weapon screening for the campus environment. The course is based on training videos used by the FBI, U.S. Secret Service, Bureau of Alcohol, Tobacco & Firearms, the U.S. Department of Homeland Security, the Transportation Security Administration (TSA), and law enforcement agencies in more than thirty countries.

Common Themes

This course reviews the following topics related to visual weapons screening:

- The importance of visual weapons screening on campuses.
- Effective policies and procedures in the event a staff member encounters a suspicious situation
- Explain why there is no "profile" of a typical violator
- Identify specific indicators that a person may be armed

Authors

Michael Dorn, M.S., FBI National Academy, is one of the most credentialed, experienced, highly respected and most trusted school safety experts in the nation. He was selected as the world's top safety expert by Jane's, the highly regarded British defense, intelligence and school safety publisher, and has authored and co-authored twenty books on school safety.

Sonayia Shepherd, M.A., Public Administration (Doctoral candidate), currently serves as an incident response team member for an international government terrorism response unit. She has also authored and co-authored sixteen books on school safety and emergency management, including four books for Jane's.

Training Environments

SafeColleges is ideal for a blended learning environment, complementing in-service or video training, or as a stand-alone training course. The *SafeColleges* approach engages the learner in an e-learning environment while a Compliance Management System automatically tracks his/her progress through the courses. This assists the district administrator or training coordinator in demonstrating compliance.
